

## GA DOUBLE PLATE SERIES DOWNFEED SPRING END GRINDERS

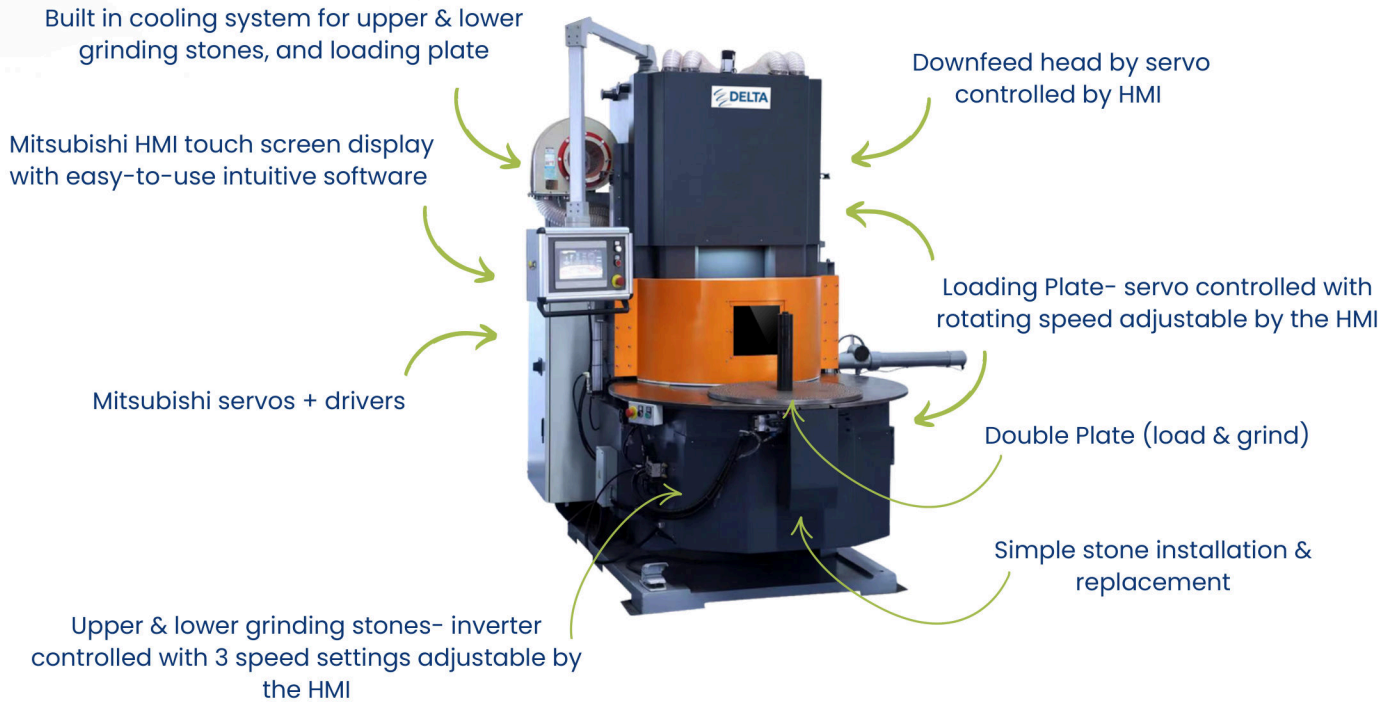

---

**Model Number GA09-02**

The Delta GA09/12-02 are servo-controlled double plate spring end grinders. The Delta GA double plate grinders offer higher productivity as one plate can be loaded while the second already loaded plate is being ground. The Delta GA double plate grinders feature servo motor control of the grinder head, upper/lower stone compensation motors, and loading table rotation and position. The grinder can be hand loaded or equipped with our optional auto loading system.

## FEATURES

## SPECIFICATIONS
